

VIKTIGT!

Stegände som ansluter mot vang ska i riklig mängd gnidas med den paraffinkloss som medföljer i skruvlådan.

Om detta utelämnas anses trappan ej vara monterad enligt våra instruktioner, se montageanvisning

IMPORTANT!

Tread end that connects to the stringer should be abundantly rubbed with the paraffin block that comes in the screw box.

If omitted the staircase is not considered to be installed according to our instructions, see assembly instructions.
